TECNIMONT (MAIRE) AWARDED ENGINEERING ACTIVITIES FOR A GAS MONETIZATION PROJECT IN SOUTH AMERICA, A FRONT-END-ENGINEERING DESIGN FOR AN LNG PLANT IN ASIA AND OTHER CONTRACTS FOR A TOTAL VALUE OF APPROXIMATELY €110 MILLION

- **Tecnimont will carry out early engineering activities to support a strategic, large-scale gas monetization project in South America, which is expected to progress into the EPC phase, and a Front-End-Engineering Design for an LNG plant for a Tier-1 client in Asia**

Milan, 27 August 2026 – **MAIRE (MAIRE.MI)** announces new awards and additional works related to previously granted contracts in the **Integrated E&C Solutions (IE&CS) business unit** for a total amount of approximately €110 million, for projects located across South America, Europe, and Asia.

In particular, Tecnimont has been awarded an early engineering contract supporting a large-scale gas monetization initiative in South America. The scope of work covers the engineering activities required to define the project's technical framework, laying the groundwork for its subsequent development phases. Subject to a Final Investment Decision, the project is expected to progress into the EPC phase, reinforcing Tecnimont's role across the full project lifecycle. The plant will constitute a key component of the midstream infrastructure required to process natural gas ahead of liquefaction and export to international LNG markets.

Additionally, Tecnimont has been selected by a Tier-1 client in Asia to carry out a Front-End Engineering Design (FEED) for an LNG plant, strengthening its positioning in this strategic business segment.

Alessandro Bernini, MAIRE CEO, commented: "With these awards aimed at supporting strategic initiatives, we are strengthening our position in gas monetization, particularly in the LNG segment, and further reinforcing our presence in South America."

MAIRE S.p.A. is a leading engineering group providing technology solutions and project execution in the downstream segment of energy services, as well as in the chemicals and fertilizers industries. The Group operates through two business units: Integrated E&C Solutions and Sustainable Technology Solutions, the latter active in sustainable fertilizers, low carbon energy vectors, and innovative materials and circular solutions. With operations in around 50 countries, MAIRE employs around 11,300 people. MAIRE is listed on the Milan Stock Exchange (ticker "MAIRE"). For further information: www.groupmaire.com.
