

TECNIMONT (MAIRE) TEAMS UP WITH THE LOCAL MUNICIPALITY OF PARADEEP AND THE NATIONAL INSTITUTE OF TECHNOLOGY KARNATAKA TO DEVELOP A BIOGAS PLANT FROM WASTE IN INDIA

- **This initiative confirms MAIRE group's commitment to circularity, as well as social and economic sustainability in the communities in which it operates**

Mumbai, 21 November 2024 - **Tecnimont** (MAIRE's Integrated E&C Solutions) announces that its Indian subsidiary **Tecnimont Private Limited (TCMPL)** has teamed up with **Paradeep Municipality** and **National Institute of Technology, Karnataka – Surathkal (NITK)** to develop a biogas plant from waste at Paradeep Municipality, District Jagatsinghpur, Odisha, as part of the Corporate Social Responsibility initiatives that TCMPL is carrying out in India.

The biogas plant enhances the deployment of circular solutions to efficiently manage organic waste. In particular, this initiative will help Paradeep Municipality to generate biogas by converting food and vegetable waste through anaerobic digestion; the biogas obtained from the recycling of organic waste will be then used by community kitchens.

This project will create jobs for local people engaged in the waste collection activities and bring educational benefits, serving as a model for innovative solutions and actively engaging university students in practical learning experiences. A first pilot plant, in fact, was inaugurated in 2021 at NITK campus, promoting research and improving energy self-sufficiency within the campus. The generated energy is obtained by converting food and vegetable waste from the hostel blocks and canteens.

Tecnimont Private Limited is the engineering hub for MAIRE's Integrated E&C solutions. Established in 1958, Tecnimont Private Limited is amongst the few engineering and construction companies in India that has capability and experience to supply plants on Lumpsum Turnkey basis in addition to providing EPC services to group companies for projects worldwide. It is headquartered in Mumbai with support offices in Delhi NCR, in the Middle East, Abu Dhabi and Jeddah. With more than 60 years of experience and as an integral part of the Group, TCMPL offers cost-optimized, world-class engineering solutions, planning and execution of complex projects.
